

MUYORI / SUPPLY STUDIO

PRODUCT REFERENCE CATALOG

Buyer-facing English product reference

FEATURED PRODUCTS | ADDITIONAL ROUTES | PROJECT CONFIRMATION

SEPTEMBER 2026

muyori-care.com

A clear starting point for a buyer conversation.

This catalog separates current reference specifications from routes that still need a buyer brief.

The catalog is a product-discussion tool, not an order form. It uses the specifications currently presented in the MUYORI product library and shows where the commercial file still needs confirmation.

REFERENCE SPEC

Reference specification shown

A current product-library reference gives the material description, size, basis weight and pack direction. It is ready for initial buyer comparison, but it remains subject to a project quotation and final production brief.

BUYER-DEFINED

Buyer-defined product route

The category, size reference or package direction is shown to start a conversation. The material, construction, count, quality standard, artwork and commercial terms must be selected for the target market.

WHAT IS NOT STATED AS A FACT IN THIS CATALOG

PRICE AND MOQ

No price, minimum order quantity, payment term or quoted lead time is stated.

COMPLIANCE AND DOCUMENTS

No certification, test result, market approval or importer obligation is claimed.

FINAL PRODUCTION DETAILS

Artwork, pack count, carton data, batch details and availability are confirmed per project.

PACKAGING IMAGERY

Product and package visuals are discussion directions, not final production artwork or a stock promise.

WHAT TO SEND WITH AN ENQUIRY

Target market, intended use, first order quantity, pack direction, artwork status and any required documents.

XL Dry Facial Towel

Disposable personal care | Current product-library reference

WHERE THIS ROUTE FITS

Beauty, travel, salon and daily-care channels. The reference focuses on a dry sheet and its usable surface rather than a cosmetic performance claim.

REFERENCE SPECIFICATION SHOWN

A larger dry sheet for cleansing, pat-drying and daily care.

A dry nonwoven towel route presented in a soft pouch, with a clear retail reference specification for initial buyer comparison.

MATERIAL	Dual-sided nonwoven - pearl and plain textures
SHEET SIZE	25 x 30 cm
BASIS WEIGHT	80gsm
PACK DIRECTION	50 sheets / soft pouch

BEFORE A COMMERCIAL OFFER

Confirm sample handfeel, final material standard, fold and pull-through, pack artwork, carton data, MOQ, quotation date and destination-market labeling before production.

Full-Size Disposable Bath Towel

Travel and hospitality | Current product-library reference

REFERENCE SPECIFICATION SHOWN

A full-body dry format for hospitality, spa and travel kits.

A large towel route shown with a single-sheet soft pouch direction for product and channel planning.

MATERIAL	100% viscose
SHEET SIZE	80 x 160 cm
BASIS WEIGHT	80gsm
PACK DIRECTION	Single sheet / soft pouch

WHERE THIS ROUTE FITS

Hotels, spas, gyms, travel and amenity kits. The format is intended to make body-drying and point-of-use distribution easy to discuss with a buyer.

BEFORE A COMMERCIAL OFFER

Confirm sample performance, folding, packaging, pack-out, carton dimensions, MOQ, quotation date and any required testing or market documentation per destination.

Disposable Underwear

Travel and care | Buyer-defined product route

WHERE THIS ROUTE FITS

Travel retail, maternity care and hotel amenities. The buyer should define fit, size range, pack count and intended channel before sampling.

BUYER-DEFINED ROUTE

A compact personal-care route that starts with the target market.

The product and pack are shown as a discussion direction for travel, maternity and hospitality projects. The product does not carry a fixed material or size specification in this catalog.

MATERIAL	Buyer brief
SIZE RANGE	Selected per destination market
FABRIC AND WEIGHT	Selected per market and product brief
PACK DIRECTION	Single or multi-pack

BEFORE A COMMERCIAL OFFER

Confirm fabric composition, construction, fit, size range, individual hygiene packaging, pack count, labeling, applicable requirements, MOQ, lead time and quotation before production.

Project-specific routes for a wider assortment.

Every route on this page is buyer-defined. The listed size or pack is a current reference point, not a final commercial specification.

ROUTE 04

Nursing pads

SIZE REFERENCE

130 x 130 mm

Disposable nonwoven cloth

PACK DIRECTION

Sheet pack or perforated roll

WET WIPES REQUIRE A SEPARATE FORMULA AND MARKET REVIEW

Substrate, liquid formula, preservation, claims and destination-market requirements need confirmation before a commercial offer.

Turn an early product idea into a usable brief.

A complete first enquiry makes sampling, commercial review and market checks more efficient.

SEND FIVE ANSWERS

01

Product

Choose a route, intended use and reference format.

02

Destination market

Name the country or sales channel and any required documents.

03

First order

Share the estimated quantity and launch timing.

04

Pack direction

Provide pack count, artwork status, barcode and reference samples if available.

05

Commercial needs

State the target price level, trade terms and inspection or testing expectations.
